

INDEX

- Abdominal disease, initial symptoms in atypical manifestations of leukaemia suggesting, 75.
- Achrestic anaemia, new observations on the aetiology and prognosis of, 163.
- Action of parasympathetic-mimetic drugs in asthma, 229.
- Acute nephritis in childhood, with special reference to diagnosis of focal nephritis, 37.
- Aleukaemic leukaemia, 177; aleukaemic chronic myeloid leukaemia, 184; aleukaemic chronic lymphatic leukaemia, 188; lymphosarcoma, 191.
- Alkalosis, renal changes in, 91.
- Anaemia, achrestic, new observations on the aetiology and prognosis of, 163.
- Artificial pneumothorax, late results of, in pulmonary tuberculosis, 323.
- Asthma, action of parasympathetic-mimetic drugs in, 229.
- Atypical manifestations of leukaemia, 67; initial symptoms suggesting: acute inflammatory process, 68; abdominal or cardiac disease, 75; initial symptoms referable to bones and joints, 78; presence of skin lesions as first evidence of, 81; initial symptoms suggesting: involvement of other systems, 83; disease of central nervous system, 85; initial symptoms directing attention to: chest, 86; genito-urinary organs, 86.
- Bones and joints, initial symptoms in atypical manifestations of leukaemia referable to, 78.
- Cardiac disease, initial symptoms in atypical manifestations of leukaemia suggesting, 75.
- Chest, initial symptoms in atypical manifestations of leukaemia directing attention to, 86.
- Childhood, acute nephritis in, with special reference to diagnosis of focal nephritis, 37.
- Choline esterase, serum, in jaundice and diseases of the liver, 107.
- Dextrose tolerance test, intravenous, 11.
- Eunuchism, preparations of testosterone in, 309.
- Galactose tolerance as a test of liver function, 151.
- Genito-urinary organs, initial symptoms in atypical manifestations of leukaemia directing attention to, 86.
- Haemorrhage, gastro-duodenal, nitrogen and chloride metabolism in, 129.
- Haemorrhagic diathesis in idiopathic steatorrhea: observations on its association with vitamin K deficiency, 247.
- Hypogonadism, preparations of testosterone in, 309.
- Idiopathic steatorrhea, haemorrhagic diathesis in: observations on its association with vitamin K deficiency, 247.
- Intravenous dextrose tolerance test, 11.
- Jaundice, serum choline esterase in, 107.
- Late results of artificial pneumothorax in pulmonary tuberculosis, 323.
- Leukaemia, atypical manifestations of, 67; initial symptoms suggesting: acute inflammatory process, 68; abdominal or cardiac disease, 75; initial symptoms referable to bones and joints, 78; presence of skin lesions as first evidence of, 81; initial symptoms suggesting: involvement of other systems, 83; disease of central nervous system, 85; initial symptoms directing attention to: chest, 86; genito-urinary organs, 86.
- aleukaemic, 177; aleukaemic chronic myeloid, 184; aleukaemic chronic lymphatic, 188.
- Liver, diseases of, serum choline esterase in, 107.
- Liver function, galactose tolerance as a test of, 151; in thyrotoxicosis, 215.
- Lymphosarcoma, 191.
- Mercury, methyl, compounds, poisoning by, 193.
- Nephritis, acute, in childhood, with special reference to diagnosis of focal nephritis, 37.
- focal, acute nephritis in childhood with special reference to diagnosis of, 37.

- Nervous system, central, initial symptoms in atypical manifestations of leukaemia suggesting disease of, 85.
- Neurofibromatosis, tuberose sclerosis, rheostosis, and, 1.
- New observations on the aetiology and prognosis of achrestic anaemia, 163.
- Nitrogen and chloride metabolism in gastro-duodenal haemorrhage, 129.
- Parasympathetic-mimetic drugs in asthma, action of, 229.
- Pneumothorax, artificial, late results of, in pulmonary tuberculosis, 323.
- Poisoning by methyl mercury compounds, 193.
- Preparations of testosterone in eunuchism and hypogonadism, 309.
- Proceedings of the Association of Physicians of Great Britain and Ireland, 1940. Thirty-fourth Annual General Meeting, 241.
- Pulmonary tuberculosis, late results of artificial pneumothorax in, 323.
- Renal changes in alkalosis, 91.
- Retinitis pigmentosa, 263.
- Rheostosis, and neurofibromatosis, tuberose sclerosis, 1.
- Sclerosis, tuberose, rheostosis, and neurofibromatosis, 1.
- Serum choline esterase in jaundice and diseases of the liver, 107.
- Skin lesions, presence of, as first evidence of leukaemia, 81.
- Steatorrhea, idiopathic, haemorrhagic diathesis in: observations on its association with vitamin K deficiency, 247.
- Testosterone, preparations of, in eunuchism and hypogonadism, 309.
- Thyrotoxicosis, liver function in, 215.
- Tuberculosis, pulmonary, late results of artificial pneumothorax in, 323.
- Tuberose sclerosis, rheostosis, and neurofibromatosis, 1.
- Vitamin K deficiency, observations on the association of haemorrhagic diathesis in idiopathic steatorrhea with, 247.
